

MAF Flying

26 April 2018

Dear Ken, It was a pleasure to meet you all on Tuesday evening.

Thank you for inviting me to share just a little of the amazing and varied work undertaken by MAF by partnering other charities.

There is so much more that we are actually involved with. Mechanical engineering; communications; and set up as an ISP for charities in East Africa to name but three! Please encourage the chaps to have a look at the comprehensive web site. Thank you on behalf of all who serve in MAF and those who benefit by our presence, for the generous donation of £150 to keep us "Flying for Life". My thanks too for the warm welcome, helpful hands to get the projection equipment appropriately placed and of course that delicious meal. I must say I loved the banter too! It will be another bit of exposure for the organisation if indeed you do put the photo of the cheque presentation into the Rotary magazine. Perhaps you could also email it to Allyson Edwards for publication in our own magazine?

Have a happy and successful year, SWF Rotarians; thank you for the amazing work done by yourselves!

Kind regards, Lynne Lynne Barker
